### *Now Enrolling For* **Handwriting Without Tears™** **Handwriting Camp 2010**

*Pre-K to Second Graders*

Our summer handwriting camps will emphasize fine motor development, correct grip, and letter formation skills. Children will participate in games, crafts, and multi-sensory writing activities that make writing engaging and entertaining! The Handwriting Without Tears™ handwriting program is very effective because it uses a multi-sensory approach to writing that is suitable for children with a variety of learning styles - visual, auditory, tactile, and kinesthetic. The program uses unique materials that appeal to kids who need help with letter formation, reversals, legibility, spacing and cursive connections.

Our handwriting camp will be directed and run by experienced Occupational Therapists who specialize in handwriting, as well as other postural, muscle endurance and sensory processing difficulties that often hinder a child's success.
